## The Repository

This repository ("Code - OSS") is where we (Microsoft) develop the [Visual Studio Code](#) product together with the community. Not only do we work on code and issues here, we also publish our [roadmap](#), [monthly iteration plans](#), and our [endgame plans](#). This source code is available to everyone under the standard [MIT license](#).

## Visual Studio Code

[Visual Studio Code](#) is a distribution of the [Code - OSS](#) repository with Microsoft-specific customizations released under a traditional [Microsoft product license](#).

[Visual Studio Code](#) combines the simplicity of a code editor with what developers need for their core edit-build-debug cycle. It provides comprehensive code editing, navigation, and understanding support along with lightweight
